<sup>1)</sup> Regulation of the Minister of Health of 7 December 2017 on the quality of water intended for human consumption (Dz. U. 2017, poz. 2294).

<sup>2)</sup> The tests were carried out using methods approved by the County Sanitary Inspector in Gdynia (nr 5/2022 z dnia 30.12.2022 r.)

<sup>3)</sup> The lower limit of the measuring range of the accredited method, which is also the limit of quantification set by the Laboratory.

If the "result" column of the accredited method contains a record: "<" or ">", it means, that it is the test outcome directly related to the lower or upper limit of the measuring range of the accredited method, whereas the given expanded measurement uncertainty relates only to the lower or upper limit of the measuring range of the accredited method respectively. In such a case, the Laboratory presents the opinion and interpretation in the "statement of conformity" column, which is based on the obtained test outcome.
